ABOUT THIS TRIP

This is an 8-day programme based in Tokyo. Day 1: Travel & departure. Day 2: Urban exploration. Day 3: Cultural exploration (full day). Day 4: Cultural exploration (full day). Day 6: Cultural exploration (full day). Day 7: Workshop & learning (full day). Day 8: Travel day. Accommodation is split across 2 locations.

SCOPE OF CONFIRMATION

This document presents the itinerary data held by ETI360 for the trip described above. The provider is asked to confirm the accuracy of all locations, activities, and sequencing, and to supply any information marked in amber ("To be supplied"). Once signed, this data becomes the single source of truth for all downstream assessment.

HOW TO RESPOND

Review each section. Where the data is correct, tick the confirmation checkbox. Where corrections are needed, annotate directly or contact your ETI360 assessment coordinator. Complete all amber fields. Sign the declaration on the final page and return this document.

COLUMN KEY

ID — Activity reference (day-sequence). Time — Local time at destination. Activity — Description of the scheduled activity. Location — Venue or place name. Supervisor — Responsible adult. Supervision — Level of oversight (Direct / Indirect / Remote).

DECLARATION & SIGNATURE

I confirm that the itinerary data presented in this document is accurate to the best of my knowledge. Where I have supplied additional information, it is complete and correct. I understand that this data will be used as the basis for ETI360's independent risk assessment.

Provider: _____ **Date:** _____

School: _____ **Date:** _____

What Happens Next

Once ETI360 receives this signed confirmation, three things happen. First, the itinerary data is locked into the trip record — it becomes the single source of truth for all downstream assessment. Second, ETI360 contacts each operator listed in Section 06 to conduct an independent review of their operating practices, safety procedures, and relevant accreditations. Third, the environment flags in Section 07 activate the corresponding risk domains, and ETI360 begins the formal risk assessment against those domains. The school and provider will both receive the completed risk assessment before the trip departure date.

If you have questions about any section of this document, or if you need to discuss corrections before signing, contact your ETI360 assessment coordinator. Incomplete returns — where amber fields remain blank — will delay the start of the assessment process.

Return this signed document to your ETI360 assessment coordinator by email or secure file transfer. Retain a copy for your records.
