Head count

- Count before boarding, after boarding, when leaving the bus, inside every venue entrance, before every move between rooms or sites, before and after meals, at every rest stop, and on return to the hotel.
- Each chaperone counts their five and reports to Emily ("B, five"). Marcus confirms the total of 30. Nobody moves until Emily closes the count.
- Students travel in buddy pairs inside their group and tell their chaperone before using a restroom.
- Each morning Emily names the day's regroup point at every site. If the schedule is interrupted, groups go there and wait.

Separated student

- Stop the group. The chaperone confirms where and when the student was last seen and calls Emily.
- Emily alerts venue security or staff at the nearest staffed point. Marcus holds the other groups at the regroup point.
- Students do not search. If the student is not found within ten minutes, Emily calls Jordan Patel, who handles the family.
- Students carry the trip card with Emily's number and the hotel address. If separated, they stay where they are and ask a uniformed staff member for help.

Phones and messages

- Chaperones use the staff group text for operations. Jordan Patel sends all family updates: Wednesday arrival, each evening, and after the last overnight stop.
- No student names, health details or photos of other people's children in group messages.
- Students may use phones on the bus and at the hotel until lights-out. Phones are away during programs, ceremonies and head counts.

At the hotel

- Chaperones check every room before students enter. Students go to assigned rooms only; no room changes.
- Room check and medication round at 8:45 p.m.; lights-out 9:30 p.m. (Friday: room check on return, lights-out 10:00 p.m.).
- Marcus and Daniel walk the corridors until 11:00 p.m. Emily's phone stays on all night; the front desk has her number.
- Students stay on their floor, keep doors closed after room check, and do not use the pool, the fitness room or any exterior door.
- Room damage or a missing key is reported to Daniel, who settles it with the front desk.

Security screening

- Small backpacks only. No food, drink, pocketknives or aerosols into the Archives, Capitol, Library of Congress or museums; lunches stay on the bus.
- Arlington screens every visitor at the Welcome Center. Chaperones show a government-issued photo ID; students under 16 do not need one.

Chaperone watch

- Two chaperones awake at all times: Emily and Aisha until midnight; Marcus and Olivia until 3:00 a.m.; Daniel and Rachel until arrival. Rachel is woken for any health concern.
- Students sleep in their seats with belts fastened, nobody in the aisle, phones silent. Students who stay on the bus at a stop remain with one chaperone.
- At every stop, students get off by group with their chaperone; count off, count on; the bus waits until Emily closes the count.

Sunday morning at school

- Jordan Patel meets the bus. Students wait in the lobby until their pickup adult arrives; nobody walks home or calls a rideshare.
- A student whose pickup is late stays with two chaperones while Jordan calls the family.
- Luggage and medications are handed back by group; Rachel returns medications to the pickup adult.

The schedule never comes first. For a driver concern, weather, a mechanical warning, a sick student or a road closure, the drivers and Emily stop at the next safe place. Emily calls Jordan; Jordan updates families with the new estimate.

Emergency Plan

Medical emergency, serious injury, security instruction or evacuation anywhere on the trip.

3. Marcus Lee stops group movement, moves the other groups to a safe point and counts.
4. Emily Carter calls Jordan Patel. The school calls the family.
5. If a student goes to the hospital, Rachel or the chaperone rides in the ambulance or follows by taxi with the health record. Emily keeps the group.

Security instruction or evacuation

- Follow venue staff immediately. Groups move together; chaperones count as soon as the group is stationary.
- Regroup at the day's regroup point, or at the bus if the site is closed. Emily reports to Jordan once everyone is counted.
- Severe weather on the road: the bus is the shelter; the drivers choose the stop.

Illness and medication

- Any breathing difficulty, head injury, allergic reaction, fainting or severe pain: call 911 first, then Rachel.
- Minor illness at the hotel: Rachel assesses; the contingency room is available; Emily decides on a walk-in clinic with Jordan.
- Lost or missed medication: tell Rachel at once; she holds the medication records and the family authorizations.
